

Menu

Sequoia. Common names include Coast Redwood and California Redwood and Wellingtonia.

It is an Evergreen living for up to 3,500 years, and this species includes the tallest trees on Earth, reaching up to 115.5 m (379.1 ft) in height and 9 m (30 ft).

The Sequoia in the New House grounds after which the restaurant is named has a circumference at breast height of some 7 metres and is believed to be one of the largest specimens in Wales.
